A large your trouble by the glorious outlook over down on that steep roof of the 'L' there. degrees, there is not one young girl out fall. of a hundred but feels the natural and inherited hunger for the skipping rope. Now, there are two ways of jumping the rope. One is for the girl to motion, straining no part of the body unat the other, and then to jump until tripped or tired out. This latter method is always the favorite, first, because it becomes a game instead of an exercise, and secondly, because the girl has nothing to occupy her hands and can devote all her energies to jumping. Here is where the danger comes in.

The steps are all up and down, up and down, for three and even four minutes on a stretch. Every time the girl alights full meal indulgence in rope skipping, particularly with other girls to turn, means dyspepsia and misery in a few
